SUMMARY

AI & Data Science developer with a strong foundation in **Python**, **Java**, and **full-stack development**. Experienced in building and deploying real-world AI applications using **Node.js**, **Flask**, and **Linux**-based systems. Passionate about problem-solving, scalable systems, and end-to-end software development.

SKILLS

Programming & Scripting: Python, SQL, C, Java
Linux & DevOps: Linux (Ubuntu), Bash Scripting, Docker, Git, GitHub, Python Virtual Environments
AI/ML Frameworks: TensorFlow, Keras, PyTorch, scikit-learn, OpenCV
Data Analytics & BI: Excel, Tableau, Power BI, Data Analysis, Web Scraping
Frontend: React.js, Next.js, Bootstrap, HTML, CSS, Electron.js, Capacitor.js
Backend & APIs: Flask, FastAPI, Node.js, REST APIs, Postman, n8n
Databases: MySQL, MongoDB
Mobile App Development: Android Studio, React Native, Android Application Development

PROFESSIONAL EXPERIENCE

Project Intern – ShenAi Private Solutions | Aug 2024 – Oct 2024

- Contributed to a real-time **Speech-to-Text** system built using **deep learning** techniques.
- Assisted in **model integration** and **audio-data preprocessing** to improve transcription accuracy.
- Collaborated on **Python-based data pipelines** that improved transcription efficiency.

PROJECTS

AI-Powered E-Commerce Platform with Business Analytics & ML Recommendations | Live Demo | GitHub

- Engineered an **AI-powered e-commerce platform** integrating **machine learning** algorithms for personalized product recommendations and product similarity analysis.
- Developed an interactive **business analytics dashboard** to analyze sales trends, customer behavior, and product performance, enabling data-driven business decisions.

Speech-to-Text Web Application – Flask, WebSpeech API

- Built a speech-to-text web application using **Flask** and the **WebSpeech API**.
- Optimized backend response time for real-time speech processing.

Timetable Management System – MERN Stack

- Developed a **Timetable Allocation System** with role-based access for Admin, Manager, Staff, and Students — streamlining timetable creation, approval workflow, and **PDF export**.
- Implemented **AI-based constraint optimization** for automatic timetable generation, handling staff availability, subject preferences, workload balancing, and conflict-free scheduling.

EDUCATION

B.Tech, Artificial Intelligence and Data Science – Nandha Engineering College, Erode | Sept 2023 – Apr 2027
HSC – Kongu Kalvi Nilaiyam Matric Higher Secondary School | Jun 2021 – Apr 2022 | 62%

CERTIFICATIONS & ACHIEVEMENTS

- **Data Analysis with Power BI** — Workshop by Mr. Sapthagiri (Feb 2025)
- **Python for Machine Learning** — Coursera
- **AI Prompt Engineering Essentials** — Google
- **3rd Place Winner** — Innovation Day 2025 (Speech-to-Text Web App)
